Notice Concerning Custom & Power Module Business Acquisition

Shindengen Electric Manufacturing Co., Ltd

This notice is to inform you that Shindengen Electric Manufacturing Co., Ltd. (HQ: Chiyoda-ku, Tokyo ; President: Masato Morikawa) acquired the Custom & Power Module Business from the SUN-A Corporation (HQ: Miyoshi, Hiroshima ; President: Yoshinari Hanaoka ; Hereafter referred to as “SUN-A”) on September 1st.

1. Purpose of business acquisition

Shindengen Electric is continuing to develop its strategy of modularization, in order to increase the added-value of the power semiconductor technology and to strengthen our competitive edge. The Custom & Power Module technology developed by SUN-A offers a unique package technology that enables Shindengen to provide faster and more flexible support for customer requests. When this technology is combined with our power semiconductor and power circuit technologies, our business development will have created a clear distinction between our company and other existing manufacturers.

Shindengen Electric has accelerated its modularization strategy through this acquisition, and will continue to adapt better to our customers' various needs and to further expand its business.

2. Future business development

Shindengen will utilize the technology, staff and resources from this acquisition to launch its business development faster. In the meantime, therefore, we are borrowing part of the headquarters and factory facilities of SUN-A in order to proceed with our planned business development. It should be noted that because of this acquisition, Shindengen will take over and inherit all commercial relations and connections that concern the acquired business.
